---

Session One: Prepare outline of a Watershed Management Plan for watershed identified

Session Two:

- What steps should Grenada take to implement such a plan?
- What are the critical issues/hazards to be addressed within the watershed? (Consider NPAs)
- Who are the key stakeholders that must be involved?
- What is needed in order to get the necessary buy-in or commitment from key stakeholders and decision – makers?

Session Three:

- How will the plan be implemented (including budget and manpower/ capacity considerations)?
- What can various partners contribute and who should lead the process?
